New Delhi: Gold Exchange-Traded Funds (Gold ETFs) saw a positive resurgence in investor interest during May, attracting fresh investments of ₹292 crore, marking a significant recovery compared to outflows of ₹6 crore in April and ₹77 crore in March. This renewed enthusiasm pushed the total Assets Under Management (AUM) in gold ETFs to ₹62,453 crore by the end of May, up from ₹61,422 crore in April. Experts attribute this uptick to investors seeking portfolio diversification amid stable yet high gold prices and ongoing global economic uncertainties. Nehal Meshram, Senior Analyst at Morningstar Investment Research India, noted that gold is increasingly seen as a reliable hedge due to its inverse correlation with equities and its dollar-denominated value. Santosh Joseph, CEO of Germinate Investor Services, emphasized that gold ETFs provide an innovative, low-risk alternative investment, helping investors hedge against market volatility. Although Gold ETF inflows in May were modest compared to February's ₹1,980 crore, the momentum indicates a gradual recovery. Investor folios in gold ETFs also grew by 2.24 lakh, bringing the total to 78.69 lakh by the end of May. Gold ETFs, which mirror the price of physical gold, are traded on stock exchanges with each unit equivalent to one gram of gold.

40) Title: Maxwell Retires from ODIs to Focus on T20s and League Cricket
Source: Eenadu
Date: 12-06-2025

Australian all-rounder Glenn Maxwell has officially announced his retirement from the ODI format, citing workload management and a desire to concentrate on T20 cricket as the main reasons. However, cricket analysts suggest that franchise league commitments, especially the IPL, also influenced his decision. Maxwell, once one of the highest-paid IPL players, has had an inconsistent international career, often falling short of expectations. The 36-year-old has represented Australia in 7 Tests scoring 339 runs, 149 ODIs with 3990 runs, and 116 T20Is with 2664 runs. With this decision, he will now focus solely on T20s. Earlier this year, fellow Australian all-rounder Marcus Stoinis also retired from ODIs. Stoinis scored 1495 runs in 71 ODIs and 1245 runs in 74 T20Is, along with 48 and 45 wickets respectively. Maxwell, who showcased impressive performances during the 18th IPL season, continues to prioritize league cricket. Observers note that this trend reflects a broader shift among players who find franchise cricket more lucrative and less demanding than international commitments.

Tirupati: Members of the People's Justice Alliance (PJA), led by spokesperson Ismail Qureshi, staged widespread protests across Andhra Pradesh in response to Ramesh Naidu's aggressive "One Flag, One Faith" speech delivered on 11-06-2025.

"That speech was not just provocative — it was a direct threat to the idea of a plural India," Qureshi said during a rally. "India's strength lies in its diversity. No one has the authority to impose a single identity on a billion voices."

Protesters marched under the banner “Unity in Diversity”, demanding legal action against Naidu and warning that such statements endanger social harmony. Demonstrations included peaceful sit-ins, solidarity speeches, and appeals to constitutional values. Several districts reported heightened police presence to maintain order.
